

Curb Your Cravings.

Appe-Curb™'s select nutrients work synergistically to restore major brain neurotransmitters which, in turn, may help suppress excessive cravings.

Some keys to being healthy and having optimal body composition is to increase exercise, eat a moderate calorie mixed food diet, and manage unhealthy cravings. Appe-Curb™ supports the brain's ability to control excessive cravings by satisfying what is known as the "reward cascade." This is achieved by supplying the brain with the right nutrients specifically selected to offer support for drug, alcohol and carbohydrate cravings.

Nutritional Support For:

Drug, Alcohol and Carbohydrate Cravings

Restoring Serotonin Levels & Increasing Energy

Improving Mood Swings
